OBJECTIVE

A curious and determined Industrial Design Engineering student that is looking to gain additional industry experience during the summer. Their focus is on sustainability, industry 4.0 and mixed reality.

EDUCATION

Bachelor of Industrial Design Engineering | University of Twente

2019 – 2022

A strong emphasis on physics and mathematics as well as gaining practical experience in workshops. Encourages to work on applied projects both in a team and individually.

Bachelor of Business Informatics | Johannes Kepler Universität

2018 – 2019

Was part of their gap year, not graduated but very insightful. Focus on business transformation and company development through the means of IT.

International Baccalaureate and Austrian Matura | Linz International School Auhof

2010 – 2018

Their IB subjects were Economics HL, Visual Arts HL, English HL, German HL, Mathematics SL and Physics SL.

EXPERIENCE

Internship | Takeda Austria GmbH

FEBRUARY & JULY 2019

Updated and maintained inventory lists and data sets for analysis, which required high precision and focus. Worked with Microsoft Office.

Internship | Naturplan

AUGUST – SEPTEMBER 2018

Assisted with landscaping plans and archival work. Worked with LTPlus, Microsoft Office, Gimp.

Internship | Softwaretechnik GmbH Traun

JULY – AUGUST 2017

Worked in a team to program a door opener with passcode lock and user recognition. Worked with Angular, HTML, CSS.
